LANGUAGES

Native Spanish,
Professional English.

PASSIONS

Gaming:

(Overwatch, Pokemon, Inside). Playing video games is one of my biggest passions, I mostly play games where teamwork is required but I do also enjoy single player experiences.

Sports:

Playing Soccer or any sports that my friends proposed me are a big part of my freetime. I'm also a big fan of hiking and exploring.

Family and Friends:

Even if it's just playing video games together or doing a video chat, it's always good to spend time with your friends and family.
