Unity, Visual Studio, Unreal, Perforce, Git, Pivotal, Slack, Android Studio, Xcode, Eclipse, Atom, Illustrator, Photoshop, Maya.

LANGUAGES

Native Spanish,
Professional English.

PASSIONS

Gaming: Playing video games is one of my biggest passions, I mostly play games that require teamwork but I also enjoy the occasional single player experience.

Sports: On my free time, I would normally play Soccer or anything that my friends proposed me. If I feel ready for an adventure I would go for a Hike.

Family and Friends: Enjoying my family and friends is a big part of my free time, even if it's just playing video games together or doing a video chat, it's always good to hang out with them.
